English

Hey, nice app! Can I help you improve your Russian translation?. There is no legit reason this shouldn't be in your library.. Very good game and very addictive !

Just try and enjoy it ! :). Game is very repetitive. There is no good way to use strategy to beat another persons army, only numbers.. Great game, I really liked it. Mechwarrior, tanks, machines In the world of sci-fi. Fun and dynamic battles. Destroy the enemy base and kill enemies. I will play this game with my friends. As fun as twistedmetal & vigilante 8.. i think they got bored and released it when it wasnt even finished yet. You call this a racing game, but I know an endless runner when I see one. Dull and derivative. Chipzel, though.. simple but cool :). Amazing Game thanks for making my day :)

The random enemy spawns and limited AI makes this Shoot-em-up more of shooting gallery. The limited scope offered quickly exhausts any drive to play this game.. Bought this game for 3.00\$.Base of player is OK,system too but game is slow-slow as turtle. You need to wait 2 minutes for simulating 1 week .Regular price is 10\$ but....I do not want to waste more money like this.. No prestiges.... I love this game, i would say it is one of the best ive ever played.

PROS:

cute waifus

nice map

the guns look good

great concept

great controls

CONS:

needs more maps

needs a chat

it isn't very well optimised

it would be better to have more characters. An essential watch for indie games' fans.
